

Timber Doors

PREMIUM SECTIONAL TIMBER GARAGE DOORS

You can now experience the natural feel, style and beauty of timber in your home with a B&D natural timber door.

The B&D Cedarpanel™ is an affordable, fully automated timber door, in a choice of three distinctive styles, to suit any home. The B&D Craftpanel™ and Timberpanel™ doors come as a fully sealed door option with a sturdy timber frame.

Cedarpanel™

B&D CEDARPANEL HORIZONTAL

Cedarpanel™ – The affordable, automatic natural timber door.

You can now have a fully automated, natural western red cedar garage door from the brand you trust.

Tailor made to perfectly suit your home, the Cedarpanel™ is manufactured from hand selected, 15mm thick, western red cedar. This sectional overhead door has a wood oil finish, enhancing the finish of the timber. Oil protection allows you to add a stain and match your door colour to your feature timbers.

Cedarpanel features a galvanised, steel frame, for long lasting strength, security and durability.

The Cedarpanel automatic door comes standard with the premium B&D Controll-A-Door® P Diamond opener, one of the most advanced and quietest openers available.

There's a Cedarpanel door to suit your home, with three styles available.

CEDARPANEL HORIZONTAL

Cedarpanel Horizontal is styled from slender slats of 15mm thick, western red cedar, joined horizontally for a contemporary look.

CEDARPANEL VERTICAL

Cedarpanel Vertical will add a unique, modern finish to your home's aesthetics. With the natural timber slats running from top to bottom, this door will make a statement on your home.

CEDARPANEL RAISED

Cedarpanel Raised combines the classic charm of yesteryear, with the modern styling of today's doors to provide a stunning look that will complement both traditional or contemporary home designs.

For those looking for a fully sealed timber door with timber frame, look no further than the B&D Craftpanel or Timberpanel.

CRAFTPANEL

Nothing can match the natural charm of timber, and B&D's Craftpanel door is the carpenter's art perfected. Designed for Australian conditions and crafted using the finest western red cedar, the raised patterns and frame provide both enduring strength and natural beauty.

TIMBERPANEL

The Timberpanel door features slim horizontal boards, made from the highest quality western red cedar and strengthened with aluminium extrusions for added support.

WARRANTY

It's important to have peace of mind when you make a purchase, that's why your B&D natural timber door comes with a:

- 12 month domestic use warranty on the structural integrity of the door, conditional on proper care, maintenance and servicing as recommended on www.bnd.com.au. Due to timber being a natural product, we are not able to warrant the timber for the final quality of the look or finish.
- For B&D Cedarpanel doors, the addition of a coat of Dryden's WoodOil and a further bottle for application by owner (within 3 months of installation) are supplied and will ensure a deep penetration of oil.

As with all types of garage doors, for optimal trouble free performance and safety, we recommend you have your door serviced annually.

Note: B&D Craftpanel™ and Timberpanel™ do not come standard with an opener. Ask your B&D dealer about automation options for these doors.

THERE'S SO MUCH MORE BEHIND A B&D DOOR

Controll-A-Door P Diamond opener is standard with all Cedarpanel doors.

Adding security, convenience and safety is the Controll-A-Door P Diamond opener. This premium B&D opener comes standard with all Cedarpanel doors, and with its quality features, is sure to suit your needs and complement your lifestyle.

CAD P DIAMOND OPENERS FEATURE:

- DC motor – making the CAD P Diamond one of the quietest openers available. Perfect if you have bedrooms near the garage.
- Soft start/Soft stop – opens the door slowly at the start, speeds up, then comes slowly to a stop, for smooth, quiet operation.
- Rolling Code Remote Control – the ultimate in security. Every time your remote is activated, it selects one of over 10 billion codes that are never to be repeated.
- Courtesy light – automatically switches on or off as you open or close your door, providing convenience and safety in a dark garage.
- Inbuilt automatic safety reverse – stops then reverses when the door comes in contact with an object.

- Automatic Close Timer – After you drive in or out, the door waits for your programmed time (30-180 seconds), then closes all by itself. For safety this feature requires the B&D Safety Infra-red Beam Kit in order to function.
- C Rail – Encloses moving parts ensuring a safer, cleaner looking rail system.

OPENER WARRANTY*

Full 5 year on-site warranty on the opener, including labour to repair, when installed by an approved B&D dealer. 12 month warranty on transmitters. Globes and batteries excluded.

Notes / Information

- * Controll-A-Door®P Diamond, in normal residential use, is covered by a full 5 year warranty on the opener, including labour to repair, when installed by an approved B&D dealer. 12 month warranty on transmitters. Globes and batteries excluded. 5 year warranty only applies to openers purchased and installed in Australia or New Zealand. Warranty only valid if warranty conditions are met. Full details of the warranty are available, on request, from your nearest B&D office.
- For areas within one kilometre of a corrosive environment eg. salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult B&D or your B&D Accredited Dealer for advice.
- The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.
- Prefixed Trademarks are trademarks of B&D Australia Pty Ltd.
- B&D products have many patents and registered designs applicable.
- Details correct at date of publication.
